EDUCATION

Cornell University, College of Engineering, New York   2014 -
Bachelor of Science in Computer Science and Art

St. Paul's Girls' School, London   2007 - 2014

WORK EXPERIENCE

JOOR   October 2019 - Present
Internal Tools Engineer, London
- Designed and implemented improvements to JOOR's customer facing API, including validation to improve the quality of data ingested. Developed internal tools using Python, SQL and JavaScript. Created custom analytics reports.
- Managed key internal documentation used as reference for many processes, streamlining process review. Onboarded new hires in London and trained them in SQL and Python. Produced training videos for onboarding.
- Spearheaded a project to redesign image upload process to allow for bulk uploads. Worked in Python. The project has processed over 53,000 images since its conception in March 2020.

Rosie Assoulin   January - June 2019
Digital and PR Intern, New York
- Worked on redesign and merchandising for the Rosie Assoulin website.
- Assisted in operations for NYFW presentation and market, and as a styling assistant for the 2019 e-commerce shoot.
- Designed Instagram layouts for the launch of Rosie Assoulin's new line, "By any Other Name".

Charlemagne Capital, OCCO Fund   June - July 2016
Technical Analyst, London
- Wrote a program to calculate volatility of equities for the fund's internal database with customizable weighting coefficient, time period, interval, and index parameters. Worked in SQL and PHP. OCCO is an emerging markets hedge fund.

Deloitte Consulting   July - August 2015
Consulting (Tech Strategy and Architecture) Intern, Hong Kong
- Worked on contract proposals, identifying and matching competencies for potential cases and on the development of internal training.
- Worked on a government case to create a training program for government employees accompanied by a complex case study. Worked with my manager and another consultant to produce a client-ready deck.

Bechtel Civil   June - July 2015, July 2013
Performance Management Intern, London
- Carried out data analysis to assist the Crossrail project's performance management team. Assessed KPIs for HS2.
- Drew up a proposal for improving agile working technology for Bechtel employees.

Grow Movement   September 2012 - September 2014
Writer and Fundraiser, London
- Wrote blog articles and case studies for Grow Movement, in addition to raising funds.
- Grow Movement is a charity facilitating free strategic consulting services by financial services professionals to small-scale entrepreneurs in Africa.

LEADERSHIP EXPERIENCE

International Students Union, Cornell University   2016 - 2017
VP of Planning
- Lead a team planning events to promote international awareness and raise money for international causes, such as organizing a gala to raise money for Syrian refugees.

Data Science Club, Cornell University   2014 - 2017
- Used SVMs and ANNs to carry out analysis of large data sets, specifically working on the EEG signal classification team, primarily using Python.
